Popular Conductor Goes Insane.

Judge E. B. January yesterday afternoon received a telephone message from Richmond to the effect that Mr. Phil Price, one of the most popular conductors on this division of the Louisville & Nashville railroad had suddenly become mentally deranged and that he was in a very serious condition.

Some time ago Mr. Price underwent an operation at the hospital at Richmond and had removed from his face a small piece of a bullet with which he was wounded several years ago. The injury had given him much trouble in the past two years and upon the advice of his physician underwent the operation with the hope of securing relief.

In a short time following the operation Mr. Price had recovered sufficiently to leave the institution and resume his duties on the railroad, and was apparently much benefitted by the treatment he received at the hospital. His illness at present is believed to be the result of the old injury. Mr. Price is an Odd Fellow and a member of the Knights of Pythias, and is also prominent as a member of the local chapter of the O. R. C.

Michael's Band For The Fair.

Those who attended the Bourbon Fair last year will remember what a distinctive feature the music was during the week and those who will attend this year will be favored with the same delightful programs that added to the pleasure of each day of the fair.

The fair society has secured the services of Michael's Concert Band, of which George Michael is the director, for the entire week, beginning September 3, and Miss Wilhelm Hamann, the popular soloist.

For the past several years the music at the Bourbon Fair has been one of the most delightful features and the return engagement of the band under the famous director insures a daily program unsurpassed in excellence.

Arrested In Covington.

Major Head, a negro, was arrested in Covington on a charge of loitering and is being held for investigation. It is the belief of the police of that city that Head may be able to throw some light on the hold-up at Caldwell, Ky., when five negroes secured \$985 from Paymaster Mullins. Two of the negroes were arrested here by Patrolman Link and turned over to the Pendleton authorities and from the description he gave the police the arrest of Head resulted.

Negro Shot Improving.

James Nichols, who shot and killed James Parker, near Jacksonville, and who was himself thought to be fatally shot, is improving and will recover. Nichols was shot twice, one ball penetrating his thigh, ranged upward, and was thought to have entered his stomach, and the other entered the calf of the leg. As soon as his condition will permit he will have his examining trial before Judge Denis Dundon.

Buys Bourbon County Horses.

J. Samoyoa, Jr., a Central American, who was in this section some time ago to buy some fine horses through C. L. Kerr, of Lexington, from Mr. H. A. Power, of Paris, a pair of 15.1 hand, five-year-old bay mares, Ruth Finch and Hilda Brown, by Taylor Simmons. The horses were expresssed to New Orleans, Wednesday, thence by boat to Central America.

Arrested On Larceny Charge.

Patrolmen G. N. McKenney and James Moreland arrested Will Ford, colored, on a larceny charge. Ford was charged with stealing several articles of wearing apparel and a revolver from an employee of a construction camp at Kiseron, and complaint to the local police resulted in his arrest at a resort in Judy's lane, Monday night. When taken into custody he was wearing the suit of clothes which he had taken besides other articles. When questioned he denied knowing anything about the revolver and said he merely borrowed the wearing apparel, intending to return it to its owner.

Ford was tried before Squire Fretwell Wednesday morning and given 120 days in jail.

Negro Draws Heavy Fine.

A jury in police court Tuesday afternoon brought in a verdict of \$50 fine and 30 days in jail against Harvey Derrickson, colored, for being disorderly on an L. and N. passenger train. Derrickson is alleged to have boarded a passenger train at the Paris depot and was standing on the platform when ordered into the coach by the flagman, O. T. Mattox, of Cynthiana. Refusing, he was led to a seat and later became abusive toward the official, who took him in charge and put him off the train. Derrickson was arrested and at his trial last Saturday the jury disagreed. Another jury was summoned Tuesday to try the case. An appeal was taken to the Circuit Court and the accused was released on bond pending the outcome of his case in the higher court.

In the police court, Wednesday, Judge January imposed the following fines: General Williams, loitering, \$7.50; Louisa Leer, breach of the peace, \$7.50; Annie Smedley, provoking an assault, dismissed; Harold Derrickson, drunk and disorderly on an L. and N. train, the limit, \$52.50 fine and thirty days in jail; Birdie Steele, provoking an assault, \$7.50. The last two were jury cases.

Perkins' Wealth.

"George W. Perkins in the chair." This quotation does not refer to Mr. Perkins in the chair at the Chicago Roosevelt Convention. On the contrary, it is taken from the minutes of a meeting of the finance committee of the steel trust, held April 5, 1904, at which it was decided that subsidiary companies of the steel trust manufacturing half finished articles should not sell same to the competitors of the trust.

This is only one of the revelations contained in the report of the Stanley Steel Trust investigating committee, one of the most able and remarkable documents of the decade. The Stanley report, in addition to the indicting former President Roosevelt for permitting the steel trust to obtain absolute domination of the steel industry, reveals beyond a successful contradiction how George W. Perkins came into possession of the colossal fortune that he is now spending to finance the Roosevelt third term movement.

Here is the story of the Perkins wealth: To start with, Mr. Perkins made some of his millions by capitalizing thin blue air into millions of dollars of real money. He made more millions by getting a monopoly of wire nail manufacturing plants and forcing the American farmers to pay \$5.50 per keg for nails for which they formerly had paid for from \$1.25 to \$1.50 per keg. Then he made more by forcing the thousands of workers in the blast furnaces of his steel mills to work 12 hours a day, seven days a week, and 365 days a year.

As a postscript to the above information, the following history of Mr. Perkins may be of interest to many at this time: Mr. Perkins was the chief aid and co-schemer of J. Pierpont Morgan while the latter was in the years between 1900 and 1911 throttling business in every direction. It was Perkins who as Morgan's business partner showed Morgan how to dominate the boards of directors of all the great railroads, banks and trust companies, express, telephone and telegraph companies, steamboat lines, insurance companies, and all the great industrial trusts, to the end that Morgan now has a strangle hold on a corporate wealth of over \$35,000,000,000, an amount equal to one third of the wealth of the nation.

Mr. W. S. Gunsalus, a farmer living near Fleming, Pa., says he has used Chamberlain's Colic, Cholera and Diarrhea Remedy in his family for fifteen years and that he has found it to be an excellent remedy, and takes pleasure in recommending it. For sale by all dealers.

Stanley Deserves Credit.

Congressman A. O. Stanley, of Kentucky, chairman of the committee of the House of Representatives which investigated the Steel Trust, deserves great credit for the systematic and highly capable way in which he conducted the inquiry.

The cost of the entire investigation was but \$39,000. This amount is in striking contrast to the cost of some of the investigations under the Republicans, notable that of the immigration question at an expense to the people of more than \$600,000.

Mr. Stanley saw to it that there was no personal excursions or junkets with the money appropriated for the probe of the steel corporation. He was willing to spend money for all necessary expenses, but was careful that not a dollar was squandered.

It will be recalled that the investigators of the immigration question spent their appropriations like water, touring Europe in the most luxurious style, visiting, at the governments expense, all the prominent places of interest, even journeying to the pyramids in Egypt.

Mr. Stanley's name will go down in history along with the masterful report of his committee, and he and the members of the committee who co-operated with him, deserve well in the estimation of the American people for the work well done.

"White Fungus" Destroying the Chinch Bug.

Among the numerous plans suggested for getting rid of destructive farm pests, that of cultivating, scattering and thus setting at work their natural enemies, has perhaps appealed to the popular imagination more strongly than any other. Since germs multiply naturally and spontaneously under favorable conditions so as to slay their thousands and tens of thousands, why, if asked, cannot these small parasites be propagated artificially and then be sown broadcast to do their deadly work whenever we desire?

The work thus far done along the line at the Kentucky and other Experiment Stations shows that it is easy enough to grow some of these parasites in large quantities, but that the difficulty arises in getting them to spread when exposed by unfavorable weather. It must be remembered that the conditions most favorable to insects like the chinch-bugs, such as drought, are least favorable to their fungous parasites.

Yet it is remarked that the chinch-bug becomes troublesome and remains so without regard for weather conditions, whenever its enemies are not at hand, a fact showing that it is affected by the weather only indirectly; that, in other words, the weather controls it by controlling the numbers of its parasites. If the parasites are not present in a locality the chinch-bug simply luxuriates until they appear, and it is with this thought in mind that the Entomologist and Botanist of the Kentucky station has made preparations to furnish Kentucky farmers with cultures of the white fungus for use against chinch-bugs.

If the bugs are present in corn fields even in small numbers it may be well to establish the fungus there as a precaution against further increase in their numbers, though it will be found easier to set it at work where a large supply of bugs can be secured at one time. Judging by recent complaints of injury to corn, Grant, Gallatin, and Henry counties offer an excellent field in which to test the white fungus. Directions for using the fungus will accompany each package sent out from the Station. Those wishing to give it a trial should write to H. Garman, Kentucky Experiment Station, Lexington, Ky.

The fungus will be furnished free as long as the supply holds out and with the understanding that it is not guaranteed to "catch". This may depend as explained on conditions, and upon the care with which directions are followed.

Mr. W. S. Gunsalus, a farmer living near Fleming, Pa., says he has used Chamberlain's Colic, Cholera and Diarrhea Remedy in his family for fifteen years and that he has found it to be an excellent remedy, and takes pleasure in recommending it. For sale by all dealers.

Never Complain Against Hello Hello Girl.

Although he has used the telephone practice ever since it has been invented Dr. Geo. H. Detwiler, pastor of the West End Methodist church Chicago, said in a recent sermon that he had never found cause for complaint against the telephone girl. Dr. Detwiler delivered a sermon upon "Courtesy," and severely criticized some people on their conduct. He referred to a church member who had spoken in such manner to a street car conductor that he was compelled to make an apology to the company. He showed how it pays to be courteous on trains, in hotels and other places. On several occasions he showed how by standing aside quietly when there was a scramble and confusion he had secured the best room in a hotel and a lower berth in a Pullman car, while others in a scramble ahead of him lost out.

Dr. Detwiler showed how courtesy is a big factor in practical religion. He admitted that there are provocations and sometimes things don't work exactly right. In using the telephone when this occurs he thinks of how the operator has been at her post since 7 o'clock in the morning and has been persecuted by many others, and he is willing to hold his peace. Dr. Detwiler said there is probably nothing more harmful to the church short of downright viciousness than lack of kindly courtesy on the part of those claiming to be deciples of Christ.

A vast amount of ill-health is due to impaired indigestion. When the stomach fails to perform its functions properly the whole system becomes deranged. A few doses of Chamberlain's Tablets is all you need. They will strengthen your digestion, invigorate your liver, and regulate your bowels, entirely doing away with that miserable feeling due to faulty digestion. Try it. Many others have been permanently cured—why not you? For sale by all dealers.

Her Business Instinct.

The Land of Cotton.

The United States is responsible for two-thirds of the cotton crop of the world.

"Were all medicines as meritorious as Chamberlain's Colic, Cholera and Diarrhea Remedy the world would be much better off and the percentage of suffering greatly decreased," writes Lindsay Scott, of Temple, Ind. For sale by all dealers.

Riches of Malay Peninsula.

One of the richest countries in the world is that part of the Malay peninsula known as the Federated States. These provinces are still under the rule of their native chiefs or sultans, though they are assisted by a British adviser. The tin mines of these small states are more valuable than most gold mines, for they produce nearly half the world's supply of tin, and the result is an overflowing treasury for the states. Vast forests of rubber trees are also proving extremely profitable.

For The Nervous Woman,

Or the woman who experiences hot flashes nothing is so good to soothe, quiet and calm the nervous system as a pure glycerin extract of native medical plants, and made without alcohol, which has been sold by druggists for the past forty years, and most favorably known as Doctor Pierce's Favorite Prescription. In younger years some women suffer from dizziness, or fainting spells, hysteria, headache, bearing-down feelings and pain. All these symptoms of irregularity and female disturbance are relieved by the use of this famous "Prescription" of Doctor Pierce.

As a powerful, invigorating tonic "Favorite Prescription" imparts strength to the whole system, and in particular to the organs distinctly feminine. For over-worked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally.

"My disease was called nervousness," writes Mrs. Lydia McDonald, of Mecosta, Mich. "I had nervous chills and numb spells. The doctor said I had a failing kidney. I doctorred seven months with our family physician. He said I would have to have an operation. Then I stopped taking his medicine. After taking three bottles of Dr. Pierce's medicines I have not had any nervous chills or weak spells. I am better than ever. My daughter is now taking the 'Prescription' and Dr. Pierce's Golden Medical Discovery, also the 'Pellets' for nervousness and weak tired feeling. These remedies have helped her ever so much in a short time. We have great faith in your medicines for female troubles."

Dr. Pierce's Pleasant Policy induces mild natural bowel movement.

We have now added to our already complete equipment the latest invention in a Collar finishing machine! On this machine, the operator places a collar over a circular steel band, as shown in the picture above, which fits into a steam heated groove, and by pressing the collar firmly for a few seconds simply moulds it into perfect shape. It is the only machine on the market which spreads the Collar so there is ample space for your tie to slip and which gives your linen a 50 per cent. longer life because it eliminates all friction and absolutely does away with cracking and rough edges.

To demonstrate the fact that this machine will not tear or wear your linen, an ordinary collar was subjected to 25,000 consecutive pressings and showed no signs of wear.

We will be delighted to have you call and see the machine in operation, also many other improved devices which we have added in our endeavor to set the Blue Grass standard for quality Laundry Work.

Salmon Eat Herring.

Thousands of salmon have been caught in streams and examined and their stomachs and insides were empty. But it is not uncommon to catch them in the sea and find in them half a dozen herring. After the salmon has been in a river for a time the lining of the stomach becomes all drawn up and wrinkled. Just why the salmon avoids feeding in fresh water no one knows.

Warts.

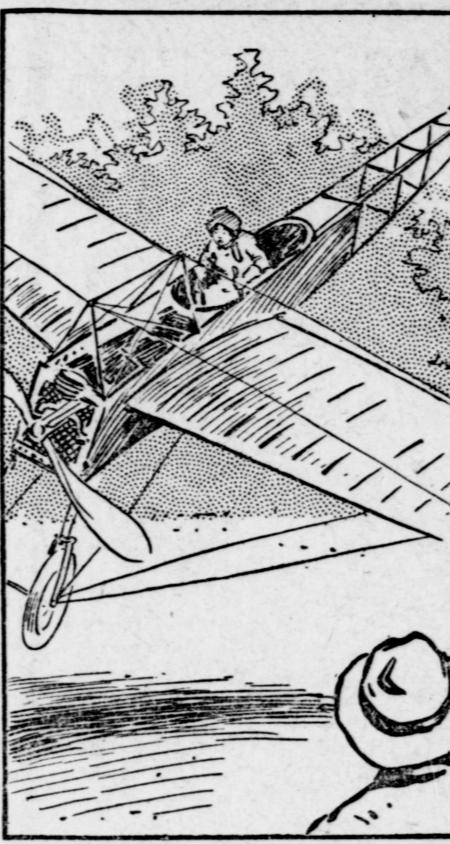

To destroy warts, make a strong solution of common washing soda and water. Bathe the warts with this for a minute or two, and let the soda dry on them; repeat the bathing several times a day until the warts disappear. GIRL LEAPS CLEAR
AS MACHINE FALLS

Carried Aloft Involuntarily, Only
Her Nimble Jump Prevents
Death Amid Wreckage.

New York.—Miss Bernetta Muller of 39 West Sixty-seventh street, whose home is in Canton, O., has been a pupil of an aviation school at Mineola, L. I., for the past week, but had only been permitted to drive a monoplane on the ground. The "elevator" of the machine had been kept tied down so that no mishap might send the craft soaring into the air.

When Miss Muller started out the other morning she thought the usual provision against sudden flight had been made, but in her absence some one had tampered with the bonds and the "elevator" was quite free to go

Dropped Like a Spent Rocket.

into action if the right lever were moved.

The girl had been driving over the lawn for several minutes when she inadvertently grasped the lever that put the flying mechanism into play. Instantly the craft started heavenward.

Miss Muller was frightened. She jerked furiously at one lever after another, but in a twinkling the plane was 20 feet in the air.

Then the girl of twenty-two, realizing that she was powerless to stop upward flight, decided to take chances on coming down and shut off the motor.

The machine, with the motor stopped, dropped earthward like a spent rocket. The girl made no attempt to guide the downward plunge, but just when another instant would have seen her crushed amid the wreckage of the steel car, she seemed to gather her wits. The bystanders heard a little cry and then the girl's body shot out and landed a few feet from the monoplane, just as it crumbled into a twisted mass of steel. She had tried to jump clear of the wreckage and her success had saved her life.

PIRATES SEIZE ITALIAN BARK

Crew of Ship Then Forced Into Small
Boats Without Water or
Provisions.

New York.—When the steamer Allemanna arrived in port the other day, a thrilling story of shipwreck and attack by pirates was told by 13 sailors of the Italian bark Genee, on board the Allemanna, and rescued by the latter boat when in a desperate plight at Inagua, the Bahamas.

After working the pumps for several days, the crew were on the point of de-

serting the bark and taking to the boats when a number of small boats came alongside, and the occupants of these boats, numbering more than 100, armed with guns and revolvers, boarded the Genee, and ordered the crew to surrender. An attempt was made by the crew to scuttle the Genee, and a fight ensued in which the defenders were badly worsted. They were then ordered into the small boats, without water or provisions.

After rowing aimlessly for two days, the crew of the Genee made land at one of the smaller Bahamas and hoisted a signal of distress, which was seen by the Allemanna's lookout.

CHARLIE WHITEMOON, the Cow Boy Herbalist
3729-31 W. Broadway, Louisville, Ky.

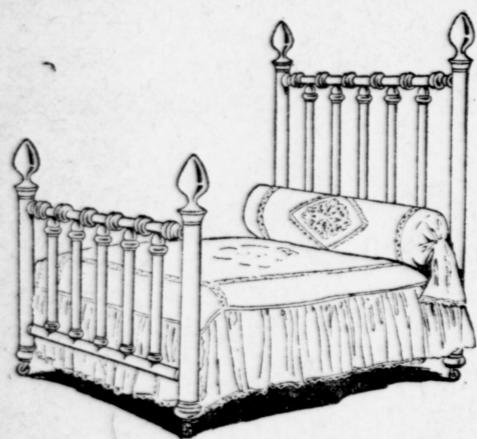

Deep down in every human heart lies a NATURAL desire for NATURE'S medicines, Roots & Herbs. Too long have the secrets of nature been neglected, too long have people disregarded God's promises. Modern doctors think only of "operations" & strong drugs, while human suffering & death from disease increase rapidly every year. Health is natural, disease unnatural. My years of experience as a Cow-boy & among the Indians give me a peculiar fitness & knowledge of the powers of Roots & Herbs as medicines, my remedies have cured & are curing Blood Poison, Lung Trouble, Kidney, Bladder, Liver, Female & Skin diseases, Rheumatism, Dropsy, Catarrh, Nervous & Stomach Troubles that were pronounced incurable by the best doctors. I want to PROVE this to the world & to any one asking, I will mail the greatest book of its kind ever published, entitled "THE COW-BOY HERBALIST," absolutely free. If you are not enjoying ALL the blessings of perfect health, your duty demands that you INVESTIGATE MY CLAIMS. All letters of inquiry promptly answered.

COM-CEL-SAR is the name of my great TONIC, BODY-BUILDER, composed of 16 Roots & Herbs, makes 3 full quarts of medicine, lasts about 3 months, costs only one dollar & is LEGALLY GUARANTEED to satisfy THE PURCHASER or money refunded. COM-CEL-SAR is sold BY ALL DRUGGISTS & DEALERS IN MEDICINE for the nerves, stomach, liver, kidneys, bowels, bladder & blood. A household remedy most excellent. Ask for COM-CEL-SAR; if your druggist hasn't got it or won't get it, I WILL FILL YOUR ORDERS POSTAGE PAID.

Burglaries Are Numerous In Paris.

During the past few nights burglaries have been numerous in this city. Tuesday night entrance was effected into three Main street stores but the burglar secured by the prowlers was very small, but several nights ago the store of Geo. S. Varden & Son was entered and a considerable sum of money was secured.

Tuesday night burglars entered the jewelry store of Mr. C. O. Hinton, effecting an entrance by raising a rear window which opens on a stairway in the rear of the store, by which the intruder was enabled to unfasten the sash. The missile was thrown with such force as to fall on one of the show cases some distance away. Here the burglar secured the sum of \$10. Mr. and Mrs. Embry who resides on Pleasant street in the rear of the store were awakened by the noise of the breaking glass but thinking it was accidental were not alarmed. The thief took the precaution to turn out two of the lights which were left burning.

The third store to be burglarized was that of Clark & Co., whose rear yard adjoins that of Frank & Co. The fastening of a rear window was forced and the sash lowered. The thief secured a number of cigars and some fine razors but left the cash drawer untouched. The exit was made through the back door.

The thief or thieves left no clue that would lead to their apprehension and it is believed by the police that the work was done by amateurs. Patrolman Fred Link took two men into custody Wednesday morning on suspicion, but they were later released when their identity was established and they were ordered to leave town.

Last week the drug store of G. S. Varden was burglarized and a considerable sum of money was taken from the cash drawer. The proprietors of the store are unable to estimate the loss, but it is believed to exceed \$50.

The police believe the burglaries were committed by a number of tramps who have been in the community recently, and who after committing the thefts left for other localities.

BOURBON CIRCUIT COURT.

Robt. H. Wilson and Isaac Wilson, Plaintiffs
Vs. — — — — — Defendants

Under and by virtue of a judgment of the Bourbon Circuit Court, rendered in the above styled action, at the June, 1912, term, the undersigned Special Commissioner of the Bourbon Circuit Court, will sell at public auction to the highest and best bidder at the court house door, in the City of Paris, Ky., about the hour of 11 o'clock a. m. on

Monday, September 2, 1912,

the following described property:

That certain tract of land in Bourbon County, Kentucky, on the Harp and Innis turnpike, about seven miles from the City of Paris, containing about 118 acres, known as the Corbin farm. About thirty acres thereof being on the northeast side of said turnpike and the remainder on the opposite side thereof. Said land is adjoining the Steele heirs on the north and Steele heirs and John J. Piper and G. A. Smedley on the east side; John J. Piper on the south, and John J. Piper and Mrs. Agnes Jacoby on the west side, and being the same tract of land conveyed by Tazewell Marr and T. K. and B. B. Marsh, in trust for Rachel Corbin and her children, by deed of record in the office of the Clerk of Bourbon County Court in Deed Book 44, Page 253.

Said sale being made to satisfy a judgment of Robt. H. Wilson against the defendants for the sum of \$2,000.00, with 6 per cent. interest from the 19th day of March, 1910, until paid, and the additional sum of \$177.10 court costs.

Said sale will be made upon the credits of six, twelve and eighteen months for equal parts of purchase money, the purchasers being required to execute bond for equal installments of the purchase price, with good security, to be approved by said Master Commissioner, payable to said Commissioner, and bearing interest at the rate of 6 per cent. per annum from date of sale until paid, and to remain a lien upon said property until fully paid, and to have the force and effect of a judgment.

Almost Lost His Life.

S. A. Stud, of Mason, Mich., will never forget his terrible exposure to a merciless storm. "It gave me a dreadful cold," he writes, "that caused severe pains in my chest, so that it was hard for me to breathe. A neighbor gave me several doses of Dr. King's New Discovery which brought great relief. The doctor said I was on the verge of pneumonia, but to continue with the Discovery. I did so and two bottles completely cured me." Use only this quick, safe, reliable medicine for coughs, colds or any throat or lung trouble. Price 50c and \$1.00. Trial bottle free. DR. C. L. DOLLE.
Why Take Treatment That Is Doing You
No Good, When Few Days Under the care
& Dr. Dolle Will Show You How Easy It
Is to Cure These Diseases When the Proper
Treatment Is Administered.

Have you treated for months and years, and
been disappointed until you think that you
can never be cured? You, no doubt, all this time have
been treated by the same old doctors who had
neither sufficient knowledge nor experience to
know how to cure you.

These are the diseases of which I have
cured so many, justly giving me the reputation
for cures of which I am so proud.

Blood Diseases, Skin Diseases.
I will give you treatment that will fit a few
days and you will be cured. My treatment gets the poison out of
the system instead of driving it in like ordinary
treatments. I cure blood diseases and skin dis-
eases so they cannot come back.

Variocelle, causing aching or pain in
groin or back, Nervousness, Weakness,
Loss of Vitality, Lack of Ambition—

My one-treatment cure is what you should
have and what you will have to be cured
right. Once you get cured, I do no cutting
and you suffer no pain or trouble. All
signs disappear in a few days.

Nervous Troubles, Lost Vitality
My combined treatment for these troubles so
common among those who have become weak and
wornout, who have caused it by folly, dissipation
and excesses, is remarkably good. No one believes
how quickly and easily under my treatment
it overcomes weakness, nervousness, pain in
back, lack of energy, ambition and strength—it's
just the treatment I have found so effective in
treating such diseases.

Kidney and Bladder Troubles
I have scientifically cured by me. My methods im-
mediately benefit you, and the majority of cases
have come from physicians and specialists who
had given up hope.

Piles, Fistulae—I can cure you so
quickly and easily that you will be surprised.
I will give you just the result and cure you are looking for without
a surgical operation.

Acute Diseases—Itching, Burning
strong, stony, sharp
remedies seldom cure. My treatment stops every
symptom and cures in a few days. It is scientific
—that's the only sure way to be cured so it will
not come back.

You can take my treatment without a
cure, pay me after I cure you. I know
that I can give you new life, new hope, and can
restore you back to health and happiness. I
know that every man will pay after I have elim-
inated every trace of disease from his system.
Microscopic and analytical treatment. I will
have my treatment to be out to be in the
hands of every suffering man in this country. I
will send you a copy, free, if you will write me at
once the disease for which you desire treatment.

Hours, 9 to 4; Sundays, 3 to 1 p. m. Evenings,
7 to 8. Monday, Wednesday and Saturday nights,

ARMED THUG TREATS
MAN HE HELD UP

Robber Makes Bartender Give
Half-Dollar at Time and
Then "Sets 'em Up."

Chicago.—Henry Johns, a bartender at 634 South State street, is of the charitable sort, so he readily complied when a burly individual entered his place of business the other night and demanded a drink.

He wasn't much concerned even when the thankless patrons asked for and consumed another without producing any money. But his astonishment grew when the fellow asked him to give him half a dollar.

"I can't give you a half," said Johns.

"Oh, yes, you can," came the answer in an ironic tone, as the man

Exhibited Two Large Revolvers.

pulled back his coat and by turning slightly one side of his body and then the other exhibited two large revolvers bulging from his pockets. Johns acquiesced. The man pocketed the half and said:

"Guess you'd better give another." Johns agreed. The burly solicitor repeated his demand for coins of the half-dollar denomination until Johns' hands were weary with punching the cash register and the till was empty of coins. A stranger strolled in.

"Have a drink, stranger," said the man.

"Don't care for any," was the reply.

"Oh, yes, you do," and the man went through the performance of exhibiting his weapons.

"I'll take a beer," said the stranger. The armed man became affable. He invited the bartender to drink with him, and shook hands agreeably all around.

A few moments later Patrolman J. H. Loeck walked in while the man was shaking hands with Johns again, seized and disarmed him.

AN UNFINISHED WAR STORY

Cannon Cracker Placed Under Chair
of Old Soldier Puts End to
Discourse.

Marshall, Mo.—A very dangerous practical joke was perpetrated the other day in front of Smith's barn in West Marshall, but fortunately attended by no serious results.

John McClevern, an ex-Confederate and a story teller of some note, occupied a chair in front of the barber

He Was Lifted Nearly to the Second
Story.

shop, and was engaged in relating his Gettysburg experiences.

"Our infantry charged the enemy. We were driven back inch by inch; our gallant captain urged us on; we made another rush and to the music of the band, and the roll of the musketry and the booming of cannon."

In the meantime one of the employees with a left-over cannon cracker slipped up behind Mr. McClevern and at the critical moment applied the match and carefully and noiselessly placed it under the chair. "Cannon," was the soldier's last word; he was lifted nearly to the second story of the barn and was stripped of hat, coat and vest in his flight.

The speed that gets that mile-a-minute "duck" with a shorter lead—that's why it takes over 50,000 dealers to handle the demand for Remington-UMC Steel Lined Shells.

The Shooting fraternity are speed wise. They know loose smokeless powder won't drive shot. They know that the drive depends on the compression.

The powder charge in Remington-UMC shells is gripped in steel. This lining is designed to give the exact compression necessary to send the load to the mark quickest. It insures speed—the same speed in every shell.

The steel lining is moisture proof—no dampness can get through. Jar proof—no powder can get out. Waste proof—no energy is lost.

HUGE FREAK FISH PUTS UP A FIGHT

New Jersey Fisherman Lands
Queer Specimen Five Feet
Long After Hard Fight.

TWO ROWS OF TEETH

The Monster That Is a Cross Between Alligator and "Jersey Devil" Will Be Sent to Smithsonian Institution to Be Identified.

Philadelphia.—Attacked by a mysterious creature, variously described as a "monstrous amphibious animal" and a "furious freak fish," Daniel Miller, a shad fisherman, was rescued from harm by his companion, Harry Taylor, in the Delaware river off Gloucester, N. J.

For five minutes after the creature had been hauled into their boat it gave battle. Until Miller became exhausted he fought the attacks with his fists. Taylor, who was operating the boat, was afraid to leave his position while the battle waged, for fear the boat would capsize.

Miller, who is one of the oldest fishermen in Gloucester, accompanied by Taylor, set out with nets for shad early this morning. Shortly before noon, when they were preparing to return home with their supply of fish, they pulled in the net.

As they brought it to the surface the weight became noticeably heavy. There was a constant jerking at the ropes. At last they were unable to pull the net any higher and lashed it to the side of the boat. When Miller opened the net the creature sprang from the water at him. The force sent Miller sprawling into the middle of the boat. The creature, which had two rows of long teeth, snapped at him twice.

When the fishermen finally landed their "catch" on land, hundreds of persons flocked to see the creature. It was taken to Miller's boathouse. Fishermen who have seen and caught many kinds of fish shook their heads

The Creature Sprang From the Water.
when asked what they thought the thing was.

The creature measures 5 feet 4 inches from the head to the end of the tail. The tail alone measures 3 feet. The head resembles the head of a large "snapper" and is not unlike that of an alligator. It has twenty teeth, some short and ragged, while those in the front are shaped like a dog's, long and pointed.

On its broad gray back are scales from one to two inches in length, which overlap one another. The creature has four feet, like those of an alligator. When standing it would be about a foot from the ground. The tail, shaped like a huge cone, resembles the tail of an alligator.

A number of the oldest fishermen believed at first that the creature was a lizard more than two centuries old, while others declared that the thing answers to the description of the "Jersey devil," which several years ago gave the entire eastern states a fright.

The thing will be kept by Mr. Miller at his bath house and placed on exhibition for a few days. In the meantime the scientific authorities at Washington have been asked to examine the creature and pass judgment as to what it may be.

Germs Busy After Thirty Years.
Rising Sun, Md.—Scarlet fever germs that had been in the house for thirty years, physicians claim, are responsible for the illness of Stanley, the young son of Mr. and Mrs. Luther McCardell of New Valley. Several deaths from the disease have occurred in the house and recently when the interior of the house was altered in the dust under the old wall paper Dr. Ernest Rowland of Liberty Grove found living fever germs.

Only Half Body Perspires.
Central Village, Conn.—An employee of one of the factories here, named Van Ness, has furnished a puzzling problem for the doctors. The man perspires on only one side of his body, the other side being dry as a bone. Asked what he thought was the reason for this peculiar condition Van Ness said: "Well, my father was French and my mother German, and possibly the German dried up the French part of me."

You Want the Best—Not the Cheapest

Flanders "20" Roadster, \$750

Don't be alarmed if somebody tells you you can buy an automobile for less money than the \$750 Studebaker-Flanders "20." You can, but you better not. The Flanders "20" corresponds point by point with the best and highest priced cars sold. Cheaper cars at every vital point are built on ideas long ago discarded for good cars. Don't take our word for it. Make comparisons and see.

The Studebaker-Flanders "20" is a marvel—a high grade modern car at a low price. If you pay less you buy much less. And the cheaper car today will cost you far more in the long run. The competing car isn't sold which the Studebaker Corporation, the greatest automobile manufacturers in the world, couldn't reproduce for less money; but we won't build a cheap car, because the name "Studebaker" means the best for your money.

If you are content with a car that runs today and dies tomorrow, don't buy the \$750 Flanders "20." It will wear for years. Remember this—the Studebaker-Flanders "20" will outwear 2 to 1 any other car under \$1100 and give you double satisfaction, confidence and comfort into the bargain.

We can prove it—Send for new catalogue

Local Men Organize Coal Company.

A gigantic coal company with a capitalization of \$10,000 to develop a large coal field in Morgan county was the plan set forward at a meeting of several prominent men of Paris and Lexington held here Wednesday afternoon. Practically all of the stock of the concern has been subscribed and it will be incorporated in Bourbon county under the State law.

The company will be known as the Coney-Cannel Coal Company and more than two hundred acres of valuable coal lands in Morgan county will be developed. At the head of the company is Mr. P. J. Johnson, of Lexington, who will fill the office of President and Dr. F. M. Faris was made Vice President, while Lee Starke, of this city, is Secretary and Treasurer. Dr. Wm. Kenney, of Paris, is a member of the directorate.

The company owns two hundred acres of rich coal lands in Morgan county, which it plans to develop and the work will begin as shortly after the company is incorporated as possible. The lands in Morgan county are easily accessible, and connect with the O. and K. railroad, which branch forms a part of the L. and E. railroad.

The promoters of the enterprise plan to operate several coal mines and are very much enthused with the prospects of an immense output of a very fine quality of coal. Offices of the concern will be opened in Paris in the next few weeks.

Dr. W. G. Dailey, who was bitten on the toe by a spider or some other insect last Friday, was compelled to go to Paris and have his foot lanced. He is improving slowly and has returned to his home. Dr. Dailey went to bed Friday night as well as usual. In the night he roused up with a severe pain in that toe. His brother, Dr. M. H. Dailey, of Paris, came down for him in an automobile and took him to Paris, where Dr. Daugherty and Pithian lanced the toe in several places. The foot was badly swollen and blood poison had already developed. Dr. Dailey is resting as comfortable as can be expected.

Investigation May Cause Shake-Up.

A general shake-up may be the result from the investigation of the school census of the city of Paris, which has been in progress for the past several days, conducted by Messrs. Marion Pogue and T. W. Vinson, inspectors sent here from the Educational Department at Frankfort.

While those in charge of the investigation will give out nothing for publication, there is a common rumor in circulation to the effect that the inspectors will make some startling disclosures when they submit their report, which is likely to take place today.

The inspectors have had before them Miss Newton Clark, who compiled the school census of the city, and together the entire list has been gone over.

Mr. Vinson left Paris Wednesday for Frankfort, while Mr. Pogue remained to complete the work to which he had been assigned.

Pay Car.

The Louisville & Nashville pay car made its monthly visit to Paris yesterday distributing the salaries among the many employees here.

DEATHS.

TAMMIE.

—Mrs. Anna Tamme, aged 70 years, died at her home near Danville, Tuesday morning, after an illness of several weeks from heart trouble. She was the wife of Mr. Frank Tamme, formerly of Bourbon county, and had only recently celebrated her golden wedding. She is survived by nine children—Mrs. Anna Helberg, of Brown county, O., Messrs. Will, John, Fred and Louis Tamme, Misses Minnie, Edith and Emma Tamme, and Mrs. M. F. German, of Boyle county. Interment took place yesterday morning in the Catholic cemetery at Danville, following services at the church.

TUTTLE.

—Mrs. Mary Tuttle, aged 61 years, died at the home of her son-in-law, Mr. Stanton Rumman, on Walker's avenue at 7 o'clock for Winchester where services will be held at the grave in the Winchester cemetery, conducted by the Rev. Mr. Wright.

RELIGIOUS.

—A very successful meeting has been conducted at the Spears Mill Baptist church, near this city, by Evangelist J. B. Ennis of Lexington, resulting in seventeen additions to the church. An all-day meeting was held Sunday and dinner was served on the ground. The church was far too small to hold the crowd that attended the service, many coming for miles to hear the evangelist.

Rev. J. W. Clark, of Owingsville, former pastor of the Paris church, will baptize those who confessed faith during the meeting, Wednesday.

—Rev. Dimmitt will begin a protracted meeting at the Clintonville Christian church Sunday evening.

Girls Take the Lead.

Judging by the facts, women are pretty fully in possession of formal education. If we examine this monopoly a little more carefully we shall find that while in the kindergarten and in the elementary schools boys furnish 51 per cent of the enrollment, simply because more boys are born in civilized communities than girls, as soon as we reach the high schools girls increasingly take the lead.

Fined For Selling Liquor.

At Catlin, Lewis Ismael was fined \$100 and costs in Justice J. T. Clay's court on a charge of violating the local option liquor laws, and six other warrants against him, on similar charges, were filed away with leave to redocket in case he should violate the local option laws. Five indictments were returned against him by the grand jury in the Nicholas Circuit Court, charging violation of the local option laws.

His "American Name."

A small Italian boy, after due attention upon the public school, asked his teacher if he might not change his name and have, instead of his true patronymic, "a 'Merican name." "What name would you like?" asked the teacher. Proudly the lad produced a scrap of paper on which was written—"Patrick Dennis McCarthy."

Whisky Consumption Increases.

The people of the United States produced more whisky and rum and smoked more cigarettes during the fiscal year 1912 than ever before in the history of the country, according to the preliminary annual report of Royal P. Clegg, Commissioner of Internal Revenue, submitted to Secretary MacVeagh, Tuesday. The consumption of whisky was exceeded only by that of beer in 1907, but beer drinking fell off substantially.

Paris Again Downs the Orphans.

At White Park yesterday afternoon the Bourbonites, for the second time this week, took into camp the lowly Orphans by a score of 4 to 1, and moved above the Richmond team in the percentage.

Dunlap was on the mound for the locals and kept them well in hand throughout the contest. Only in one inning did he allow the visitors to bunch hits and this was responsible for the only run secured by the cellar champions.

Errors were responsible for two of the runs secured by the Paris team, but timely hitting netted the remainder. Dunlap was wild at stages, but was successful in securing control and very effective in pinches.

The Bourbonites put up a splendid game, not an error being registered against them throughout the contest. The fielding of Locke was a feature.

Richmond losing to Frankfort yesterday afternoon put Paris a few points to the good in fourth position, with Lexington within hailing distance in the advance. There is a possibility that Paris may close the season in the first division and with this object in view, the services of another pitcher have been secured and he will report to the local club at Maysville.

Today Paris will go to the river town for a series of three games and will make an effort to come out with the long end. This series will probably determine the result in the finish and the locals are determined to trounce the Rivermen in at least two of the games.

TUESDAY.

In the double header with the Pioneers at Richmond Tuesday, Paris won the first by a score of 3 to 1 and the second 10 to 5. Applegate was on the rubber for Paris in the first exhibition and Dunlap, who was driven from the rubber in the game Monday came back and held the visitors to six hits. The five runs made by the Pioneers came in the first two innings.

WEDNESDAY.

Paris easily defeated the Orphans in Mt. Sterling, Wednesday afternoon, winning by a score of 11 to 1. Hause, who pitched for Paris was never in danger of defeat, as his teammates were hitting well behind him while his effectiveness kept the Orphan batters guessing throughout the game.</p
